OBJECTIVE

Software engineering student passionate about AI, full-stack development, and interactive digital experiences. I enjoy building modern web and mobile applications, exploring AI tools, and creating scalable solutions through creativity and technology.

EDUCATION

Institute of Engineering & Management, Kolkata (School of University of Engineering and Management, Kolkata)

B.Tech in CSE(AI&ML) 2024 – 2028

SGPA: 9.28 | 8.83 | 8.62 (3 Semester); CGPA: 8.91 | Rank 18 (AIML Department)

CLASS XII - WBBSE – PCMB – 80% 2022 - 2024

CLASS X – WBCHE – 78.8% 2020 - 2022

EXPERIENCE

AI & Full Stack Development Intern | IEDC, IEM Kolkata Dec 2025 – Jan 2026

- Developed “E-Sehat”, a telemedicine healthcare platform connecting patients, doctors, and pharmacies.
- Built AI-assisted healthcare features, appointment systems, and prescription workflows.
- Worked with HTML, CSS, JS, Node.js, Express.js, PostgreSQL, and AI APIs.
- Gained hands-on experience in full-stack development and AI integration.

SKILLS & ABILITIES

Languages: Python, Java, C, JavaScript, TypeScript
Web & App: React, React Native & Expo, Node.js, Express.js
Tools: Git, GitHub, VS Code, Google Colab

AI/ML: TensorFlow, PyTorch, OpenCV, CNN, YOLO
Database & Cloud: PostgreSQL, Firebase
Other: Blockchain, IoT

PROJECTS

E-Sehat – Telemedicine Healthcare Platform:

- Developed a telemedicine healthcare platform connecting patients, doctors, and pharmacies.
- Built AI-assisted healthcare support, appointment management, and prescription workflows.
- Used React Native, Node.js, Express.js, PostgreSQL, and AI APIs for scalable healthcare solutions.

Plant Disease Detection | Computer Vision:

- Developed a YOLO + CNN based computer vision system for plant disease identification.
- Enabled real-time disease detection using images and live camera feeds.
- Built using Python, OpenCV, TensorFlow, and deep learning frameworks.

Swastha AI | AI Healthcare Platform:

- Developed an AI-powered healthcare platform with symptom analysis, medicine search, and appointment booking.
- Integrated Gemini API, Firebase, and Google Maps API for intelligent healthcare assistance.
- Built responsive frontend using React and TypeScript with secure cloud-based infrastructure.

Interactive 3D Portfolio:

- Designed an immersive 3D portfolio experience using Three.js and React Three Fiber.
- Implemented dynamic lighting, procedural animations, GLSL shaders, and WebGL effects.
- Built responsive interactive UI with modern frontend technologies and creative visual storytelling.

CERTIFICATIONS

IBM Machine Learning Professional Certificate
The Joy of Computing Using Python – IIT Madras
NPTEL Discrete Mathematics (82%) – IIT Madras,
Information Theory-The Chinese University Of Hong Kong
Cyber Security Fundamentals - University Of London

ACHIEVEMENTS

1st Place – XiBit Hackathon for blockchain-based DAO platform
2nd Place–UIC for AI-powered disaster & agriculture drone systems
Rank 18 in 1st Year B.Tech CSE (AI & ML), IEM Kolkata
